

The Watchman's Daily Devotion (Personal)

AI builds your personal devo. Run it seven days. Tune it.

Before you disciple anyone else, your own walk has to be fed. This week you have AI build a personal daily devotion tuned to where you actually are — a passage, a short reflection, a prayer prompt — and you run it for seven days. Then you tune it. Drop whatever doesn't feed you; this is a meal, not a performance.

THE ACTION

- Tell AI where you are spiritually right now and what you want to grow in.
- Have it build a 7-day devotion: a passage, a brief reflection, and a prayer prompt each day.
- Run it for seven days — same time, same place.
- Tune it. Keep what fed you; cut what was filler. Build week two from what worked.

FEED YOURSELF FIRST

The watchman who never eats can't stand the watch. A leader running on empty has nothing to give — guard your own intake before you scale to others.

SCRIPTURE

John 15:5 — "He who abides in Me, and I in him, bears much fruit; for without Me you can do nothing." The devotion is abiding, not box-checking. Stay connected to the Vine first.
