

# Draft Your AI Charter

*Five lines. What AI is for. What it never replaces.*

---

Captains build guardrails before they touch the throttle. Today is the smallest, hardest, most important SACA of Week 1: define what AI is for in your life — and what it is not for.

## Action checklist

- Open Claude (primary) or your tool of choice.
- Write five lines: what is AI for in your life? What is it not for?
- Save it where you'll see it daily — pinned note, second-brain, fridge.
- Post one line of your charter in the bootcamp comments.

### CAPTAIN'S NOTE

If you can't write the charter, you're not ready to use the tool. That's not a problem. That's the first lesson.

## Scripture sit

*Habakkuk 2:2 — "Write the vision; make it plain on tablets, so that he may run who reads it." Your charter is the tablet.*

## What I noticed
